## KEY EXPERIENCE

### Origin Energy/Australia Pacific – Head of Supply Chain and Agile Portfolio Manager

Influenced \$2 billion operational expenditure per annum, \$1 billion capital expenditure + major projects per annum. Drove and delivered \$697 million of cost savings over 3 years, against a target of \$550 million. Completed numerous organisational restructures and initiatives required to re-set APLNG's competitiveness in the global market. Including the centralisation of supply chain from a fragmented model within the \$25B project, enabling low cost and safe sustainable supply operations for the upstream business. Led and executed numerous resource rationalisation program, reducing supply chain resources in excess of 60% without compromising productivity and performance. Increased diversity and indigenous representation across the supply chain, including internal personnel and external suppliers.

### BHP Billiton (BHP/Mitsubishi Alliance-BMA) - General Manager Supply

Implemented resources and organisational structure optimisation program, which included 270 cost saving initiatives, realising FY13 total savings of \$503.4 million across all portfolios. Designed and implemented the BMA local buy program (one- year program of work) as part of our commercial sustainable footprint – BHPB endorsed and recognised as best practice. Standardised documents, processes and procedures across categories to enhance efficiency and drive stronger governance and compliance; including the implementation of risk mitigation controls through enterprise risk reviews and business continuity plans.
